## SKILLS

- JavaScript
- React.js
- Next.js
- Svelte.js
- Redux
- HTML
- CSS
- Bootstrap
- MUI
- Sass
- Tailwind

## Education

### ICS

Govt College LundKhwar, Mardan

2017 - 2019

## Professional Experience

### Software Engineer March 2023 - Present

Breu Technologies — Lahore, Pakistan

Breu build fault tolerant, high performance, distributed systems for cloud-native environments, via a mix of bleeding edge engineering & extreme automation.

UI components designing & application interface coding

- Identified **web-based user interactions** and developed highly-responsive user interface components via **Svelte js**
- Translated **designs & wireframes** into high-quality **code** and wrote application **interface code** via JavaScript following **Sveltekit workflows**

### React js Developer Jul 2022 - December 22

MTP-Mayfair Technology Partners — Lahore, Pakistan

A digital development house with a world class team of consultants, project managers, designers and developers dedicated to supporting the digital transformation of clients and partners around the world.

UI components designing & application interface coding

- Identified **web-based user interactions** and developed highly-responsive user interface components via **React concepts**
- Translated **designs & wireframes** into high-quality **code** and wrote application **interface code** via JavaScript following **React.js workflows**

Code debugging & front-end architecture

- Troubleshoot **interface software** and **debugged application codes** to improve functionality and performance by 50%
- Developed and implemented **front-end architecture** to support user interface concepts with **100% accuracy**

### Frontend Developer June 2018 - Feb 2022

OOP Technologies — Lahore, Pakistan

Oop technology is the largest networking web development web site company. It is the best web development site that helps in maintaining organization online.

UI Coding & Optimization

- Determined the structure and **design of web pages** based on user requirements and balanced functional & **aesthetic designs**
- Created **features** to enhance the **user experience**
- while ensuring that the web design is **optimized for smartphones**  
Employed a variety of languages such as **HTML and CSS** to write & create **user-friendly web pages**

Coding & Website Improvements

- Built **reusable code** for future use and **optimized web pages** for maximum speed and scalability
- Managed **brand consistency** throughout the design and maintained & improved the **company's website** by adding more features and functionality

**Torque360** — Lahore, Pakistan

Torque is a cloud-based workflow management platform tailor-made for the aftermarket auto-repairs and services industry.

## Application Interface Coding

- Monitored and improved front-end performance and documented application changes & worked on updates
  - Structured UI components from Scratch
  - Created reusable components for different features which are also useful for future uses
- 

**React js Developer**

Nov 2021 - April 2022

**Secomind.ai** — San Jose, California

SECO Mind specializes in artificial intelligence, data analysis and machine learning. Discover Clea, our complete AI / IoT solution.

## Bugs Finding and Speed Improvements

- Developed the **latest user-facing features** using React.js and built reusable components for future use.
- Optimized components for **maximum performance** across a vast array of web-capable **devices and browsers**
