

ABID ALI

Frontend developer

I am a Frontend Developer with over four years of experience, specializing in identifying web-based user interactions and designing highly-responsive user interface components using React concepts. Additionally, I am currently Learning backend technologies. I excel in translating designs and wireframes into high-quality code, and proficiently write application interface code using JavaScript and ReactJS workflows.

SKILLS

- JavaScript
- React.js
- Next.js
- Svelte.js
- Redux
- HTML
- CSS
- Bootstrap
- MUI
- Sass
- Tailwind

Education

ICS

Govt College LundKhwar, Mardan
2017 - 2019

Professional Experience

Software Engineer March 2023 - Present

Breu Technologies — Lahore, Pakistan

UI components designing & application interface coding

- Identified **web-based user interactions** and developed highly-responsive user interface components via **Svelte js**
- Translated **designs & wireframes** into high-quality **code** and wrote application **interface code** via JavaScript following **Sveltekit workflows**

React js Developer Jul 2022 - December 22

MTP-Mayfair Technology Partners — Lahore, Pakistan

UI components designing & application interface coding

- Identified **web-based user interactions** and developed highly-responsive user interface components via **React concepts**
- Translated **designs & wireframes** into high-quality **code** and wrote application **interface code** via JavaScript following **React.js workflows**

Code debugging & front-end architecture

- Troubleshoot **interface software** and **debugged application codes** to improve functionality and performance by 50%
- Developed and implemented **front-end architecture** to support user interface concepts with **100% accuracy**

Frontend Developer June 2018 - Feb 2022

OOP Technologies — Lahore, Pakistan

UI Coding & Optimization

- Determined the structure and **design of web pages** based on user requirements and balanced functional & **aesthetic designs**
- Created **features** to enhance the **user experience**
- while ensuring that the web design is **optimized for smartphones**
Employed a variety of languages such as **HTML and CSS** to write & create **user-friendly web pages**

Coding & Website Improvements

- Built **reusable code** for future use and **optimized web pages** for maximum speed and scalability
- Managed **brand consistency** throughout the design and maintained & improved the **company's website** by adding more features and functionality
